Kaselehlie! Greetings from Pohnpei!

CHURCH HAPPENINGS: The church continues to see visitors on a regular basis and on Sunday mornings, it is extremely crowded. A good problem to have, but a problem still. We are definitely looking at our options for beginning a new building in the very near future and we ask that you please pray with us on this project. Many of you have mentioned the possibility of coming to Pohnpei to help with the building project when the time comes. We ask that if this is still an interest to you, please get in touch with us as we work on the plans to begin.

We are very excited to welcome a new member in the church, our staff members Rasyon and Terisa Aron's brand new baby boy. We are praising God for a safe delivery of a precious, healthy baby.

We have recently seen some salvation decisions. One in particular is an elderly woman with cancer that we visited on church visitation. I had the wonderful privilege of showing her how she can know she will spend eternity in Heaven. Another salvation decision came from a young girl in Susan's Sunday School class. Our daughter Katy was able to be a part of it as she brought her to me to talk to after church one morning.

The fall months bring a great deal of busy-ness as we prepare for our youth and children's Christmas programs as well as begin looking to our annual Missions Month in November. I also have the unique privilege in just a few weeks to travel to another island to preach for their revival services for a week. Please pray with me for that week of meetings on Majuro. Another unique ministry opportunity coming up is a trip to the small outer island of Pakin with several from our church and Missionary Gabriel Eiben. The purpose of the trip is to distribute solar powered radios tuned to the Baptist radio station and to minister to the people in any way we can while there. Please keep this trip in your prayers as we plan to leave November 10 for the 2 day trip.

FAMILY UPDATES: Another year of homeschool is underway. Though Kaleo is primarily done with high school, he is finishing up a foreign language credit and science credit while working to save money for college. He plans to remain on island for now to help with the ministry here as well as continue his swim training while taking some online college classes. Kestra is in 8th grade this year and Kyler is 7th. They are both enjoying being a part of the youth group and swim team. Katrianne is in 5th grade now and Kaylinn is in 1st grade. Each one of our children are wanting to focus more on music lessons this year and we are excited to see a renewed interest.

BIBLE INSTITUTE: We are halfway through our first semester of Bible Institute classes already. We were excited to see quite a few new students join the classes this year so the classes once again have a bigger attendance than in recent years. Several of our past students have now left the island to attend Bible college. We are thrilled to see them further their education and Bible training and are happy to have been a part in their training.

God continues to work here in the islands and we are truly honored to have each of you as a part of the ministry here. We thank you for your faithful prayers and support and to so many of you who have reached out to us through mail and emails.

Because of Calvary,
Rickson & Susan, Kaleo, Kestra, Kyler, Katrianne, & Kaylinn
